

The State Department of Education (SDE) invites you to share your views on the safety and security of our public schools. Participate in a brief online survey and get your ideas and opinions heard. You can find the survey at [www.sde.idaho.gov](http://www.sde.idaho.gov), listed under "Helpful Links" as the "Safe and Secure Schools Assessment". The survey will be available through October 19, 2007.

The Safe and Secure Schools Assessment, being conducted this fall, is a positive step in protecting Idaho's school children now and in the future. It will provide a snapshot of where Idaho schools stand today in terms of safety and security, identify needs, and provide realistic recommendations for each school and district.

As part of the assessment, input is being collected from school communities (parents, teachers, students, etc.) throughout the state. If you would like to share your views regarding school safety and security, take the survey today!
